FROM CLICK TO DOORSTEP

A workflow that keeps moving.

01 Customer places an order

Guest checkout through Cash on Delivery or optional bKash.

02 Stock and payment stay aligned

Inventory is reserved safely and restored after failed payments.

03 Your team books delivery

Approve the order and send it to the active local courier.

04 Everyone sees the latest status

Courier events update the admin workflow and tracking page.

CLIENT-OWNED ENVIRONMENT

Your store. Your data.

Your control.

Your business receives a dedicated store environment. Customer, order, catalog and operational data are not mixed with another Reverb Commerce client.

01**Your business identity**

Your domain, branding and store settings.

02**Dedicated environment**

An isolated store and business data boundary.

03**Operational control**

Your team manages daily work without code.

SIMPLE PLANS, MORE VALUE OVER TIME

Choose the plan that fits your business.

Every subscription includes the complete platform. Longer billing periods reduce the monthly cost without removing features.
